

Inquiry Form for Plate Heat Exchanger Heating/Cooling/HVAC (normal media)

Project Name:	Page _____, Total _____
Location:	Contacts:
End User:	Phone:
Dealer:	E-mail:

1. Heat load of each equipment:

_____ kW Others: (Such as kcal/RT, etc)

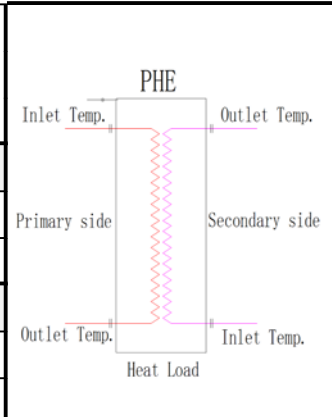

2. The temperature of the Primary side.

Steam:		MPa Saturated steam
or		Mpa °C Superheated steam
Condensated temp.		°C (common 95/90/85/80)
Water:	Inlet	°C Outlet °C
Other Media:		

3. The temperature of the Secondary side.

Water:	Inlet	°C Outlet °C
Other Media:		

Air con. (Common 60-50/55-45/50-40/60-55/55-50)
DHW (Common 65-10/60-10/55-5/50-5)
Refrigeration system (Common 12-7/14-9/11-6/13-8)
Process (Common 25-20/20-15)

4. Rated flow:

Flow of primary side		m ³ /h
Flow of secondary side		m ³ /h

5. Max. pressure drop on the rated flow:

Primary side		kpa (1m=10kpa=0.01Mpa)
Secondary side		kpa (Common 50-100kpa)

6. Design pressure of plate heat exchanger

PN10 PN16 PN25 Others:

7. Material of plate

AISI304 AISI316L Titanium Others:

8. Other requirements:

Remarks: All items blank means no requirements.
If you have any limitation for intallation (Size/Height/Width/Wight etc.,Please inform)
